Assistant Commissioner for Patents
Washington, DC 20231

Sir:

Please amend the above captioned application as follows:

In the Claims:

Please enter the following new claims.

-
12. A liquid crystal display, comprising:
- a first panel having a first electrode and a second electrode that are separated from each other and generate electric field by applying voltage;
 - a second panel spaced apart from said first panel;
 - a liquid crystal layer interposed between said first panel and said second panel, wherein liquid crystal molecules are aligned substantially parallel to said first panel and said second panel; and
 - a plurality of spacers dispersed in the liquid crystal layer,
